

Collection System Performance Annual Report

2023

I. General Information:

Facility Name: City Of Cherryville
Responsible Entity: City Of Cherryville
ORC: Jason Timothy Stone

Description of Collection System:

The City of Cherryville serves around 2550 customers. Most are residential with some light Commercial, and a few Industrial customers. The City of Cherryville Maintains around 25 miles miles of gravity lines, along with about 10 miles of sewer Force Main Lines. The City maintains 10 Sewer Lift Stations.

II. Performance

The City of Cherryville's Collection system is in good shape for being such an old system. We do have some lines in areas that are susceptible to inflow and infiltration, and have been narrowing these sections down to decide how to proceed with rehabilitation. These areas result in very few overflows as listed below.

January - None

February - None

March - 22nd 100 Gallons at 515 North Mulberry Street

April - 12th 40 Gallons at Academy Easement

May - None

June - None

July – None

August – 27th 500 gallons Keystone Pump Station

September – None

October – None

November – None

December – None

III. Notification

This Report will be available to the Public at their Request.

IV. Certification

I Hereby under penalty of law certify that this report is complete and accurate to the best of my knowledge. I further certify that this report has been made available to the customers of the City of Cherryville and that those users have been notified of its availability.
